THE
BEST OF THE BREEDS

■ Selected by many ■

■ Supplied by few ■

- Red & White Charolais
- Black Angus & Red Angus
- Simmental
- Gelbvieh

- All bulls are semen checked and veterinary inspected.
- Semen tests, all scrotals and weights will be available sale day.
- Half down on sale day with a May 1, 2011 post-dated cheque for the balance.
- Insurance available sale day.
- *Sight Unseen Purchase Program*: For those who cannot attend, we offer a Sight Unseen Purchase Program. Call us with your needs (birth weight, frame, weight, etc.) and we will recommend suitable bulls. We will deliver the bulls to you with a satisfaction guarantee. Your order will be handled in strict confidence. Call the owners, T Bar, or any of the sale staff.
- *Right to Draw Semen*: In the event that we would like semen on any of the bulls selling, we reserve the privilege to draw semen in the off season at our expense for in-herd use only.

“Haul your own bull” \$100.00 discount - Bring your own trailer and take your bull home and receive a \$100 credit off your purchase.

Or Pay \$ 100.00 and we will take the **yearling** bulls home, feed and deliver them by June 1/2011.

Payable at the time of settlement.

All bulls to be taken home and boarded must be insured

Note - All 2 year old bulls must be picked up or delivery will be made immediately after the sale.

We invite you to join us

From the Desk at T Bar . . .

Welcome to the 7th Annual Best of the Breeds Bull Sale. For seven years now this sale has been the one stop shopping source for herd bulls in east central Saskatchewan. Buyer's have the opportunity to select elite bulls from several different breeds to compliment their breeding program.

The breeder's who supply the genetics for "The Best of the Breeds" are all young enthusiastic stockmen, with generations of cattle breeding behind them. They all have a common goal of providing you quality sires, and making sure your cows get bred in a timely manor. Should a problem arise, contact them and they will certainly help you out.

The calf market is stronger than it has been in many years and your old bull is kind of like a John Deere tractor, worth more than you paid for him. So the time is now to trade up into the latest, freshest model. Your best way to take advantage of a high cattle market is to produce top quality calves that are born in a tight calving window, make sure your bull battery is ready and big enough to get the job done.

The bulls will be available for viewing on Saturday and Sunday morning. Come view the bulls at your convenience, visit with the consignors and let them help you select the bulls that will best suit your needs. Also plan to join us for what is always a great complimentary presale lunch.

If you need any assistance prior to or sale day, do not hesitate to call Ted or myself at T Bar C.

See you at Parkland Livestock in Leross.

Chris

Cattlemen,

Welcome to the 7th edition of the Best of the Breeds Bull Sale. We would like to thank our previous bull buyers for showing confidence in our breeding program.

Calving ease and performance continues to be our # 1 focus. This year's bulls are sired by a new group of bulls that have low birth weight and high yearling weight epd's. The sires we are using can be used on both cows and heifers. The result is virtually no problems at calving time.

We all know that Char-cross calves are bringing a premium at the auction market. The bulls in this sale will give you those extra pounds at weaning time without sacrificing calving ease.

An important bonus for you, the bull buyer, is knowing that NO BULLS have been sold prior to the sale. Our very best bulls are here including our bulls that many of you had an opportunity to see at Agribition.

So whether you are a commercial producer wanting to top the market, or a fellow breeder looking for specific genetics, you all have the same opportunity to buy the bull of your choice.

We service what we sell. While problems are rare – they do happen. We will do everything we can to ensure your cows are bred.

If you would like to preview the bulls, stop by the farm or give us a call. Even if you're not presently in the market for a bull, come to Leross for lunch and a visit. It is our way of saying "thank you" for your support.

See you in Leross!

Doug & Tammy

Santa Fe could take your program to the next level, be it purebred or commercial. Power-packed with explosive performance, 4X will add pounds to any calf crop. His sire was Sr. Bull Calf Champion at Agribition and had one of the highest WPDA in the Charolais barn that year. The top 4 sons of Challenger avg \$6745 at the P&H ranch bull sale this past February. Take a hard look. He might be better than his father!

8X was a member of our string at Agribition. He placed 3rd in a tough class with many commenting he was the thickest topped calf in the barn. Anytime you find a bull with a minus Birth Weight EPD along with a high Yearling Weight EPD, snap him up. This is what our program is all about. Easy calving with tremendous growth. His mother is a great producing cow. A son is doing a good job at Harmon Charolais, and the high selling bred heifer at last year's Showcase Sale out of Western Edge, is a daughter that is going to do great things in the future.

Fed Ex was also at Agribition and attracted a lot of interest because of his smoothness, square top and length. 26X is a bull that could be used on either cows or heifers. A maternal brother was 2nd high seller in last year's sale to the Howe's at Moose Jaw. Other brothers are working for Matt Jones and Kevin Fuchs. Fed Ex's mother is a compact, fault-free cow that produces a top-end calf every year.

DOGPATCH ACRES

Charolais

It looks as though we finally turned the corner in the beef business and we are in for a great run as we head into the next few years. We are proud of our offering with outstanding yearlings and something new for us, a set of **virgin 2-year-old bulls**.

Over the years, you guys have asked for them, so we thought we would hold back some of the younger bull calves from last year, develop them on grass, and see how our bulls stack up in the 2 year old market. No hooves trimmed, and grass fed from May - November. You will agree, these bulls definitely fit today's market.

We have been improving our herd over the last year with the addition of a number of select cows from some of the top herds in western Canada. Our goal is to continuously improve our herd, and in return, help you improve the profitability of yours. Come and enjoy the day, purchase with confidence, and capture the premiums offered for Char-cross cattle!

Red Herd bull. You wanted him at Agribition, but you had to wait until sale day to own him. Here is one of the thickest red bulls out there. Big butted, huge topped and smooth polled, all wrapped up in a deep red coat. To top it off he was born unassisted out of a first calf heifer, which reflects on his 90 lb. birth weight. If you want to gain the Charolais growth advantage and still maintain the red colour in your calf crop, get Detonation and watch your calves explode at sale time!

Outcross Red Herd bull. Extremely low birth weight, and power and performance to burn. The calving ease comes from the industry leading SVY Kaboom, and out of a rock solid Mr. Redman daughter. He has just enough frame to cover the big cows and the natural thickness to produce herd bulls for years to come. You loved him at Agribition, and now is your chance to step up into the newest red genetics on the market.

Co-owed with Harcourt Charolais.

Tidalwave is younger bull that shows a ton of promise. A great top, square hip and lots of barrel will help your calves crush down the scales come fall time. Tidalwave has a nice clean front end and a small head, which will make calving a worry free time, and he has the power to stack up the pounds on his offspring. Come fall time, his calves will hit the ring like a Tidalwave!

Heifer Bull Alert. Rockstar has a calving ease pedigree, with females going back to some of the industries leading calving ease bulls. His sire, Dogpatch Triple X 36S, is used on heifers with no issues. Finally, Rockstar had a short gestation and small birth weight, which all adds up to easy calving. But that's not all he has to offer, muscle and natural thickness are present in this outstanding package.

Intel is a power bull with tons of hair, muscle and mass; He is long and correct with lots of testicular development. His dam was the high selling cover page cow for the Bar EW Dispersal. She was fed right up and I think that contributed to this calf's extra birth weight. Use Intel to add polled performance and a great hair coat to your calves. Recommended for mature cows.

Here is a bull off a proven performance pedigree. Evolution is synonymous with performance, docility and calving ease, now double that up with the likes of Nobleman, and you got yourself a herdsire. Pipeline is exceptionally quiet, with a ton of hair and lots of growth potential, and just look how well balanced his EPD's are.

Co-owned with Harcourt Charolais.

We had an opportunity to choose a package of cow/calf pairs out of the great Qualman herd from Dundurn. Immediately I picked this guy and his mother as first choice. Polled, hair and unbelievable performance. Ben Hur is the type of bull that the industry is after. A smooth made power bull with extra length, and will sire calves with great hair coats and the performance background to really press down the scales.

Buddy is the type of bull that will put some stretch into your calf crop. His smooth shouldered front end, and small head are followed up by a long spine and big toolbox! He has enough frame to reach the mature cows. Buddy will make an excellent cross on British type females, adding extra length to his calves while maintaining calving ease.

An outstanding 2 year old. I know it's hard to look into the future to see how a young bull will mature. Last year we offered him up as a yearling, just 365 days old at the bull sale, and at that time he wasn't quite old enough to meet your needs. Now, you'll be impressed when you see him shine. Triton was truly a diamond in the rough.

A moderate framed 2 year old that is packed full of red meat. A strong top and big butt end, combined with good depth of body, best describe this herdsire. He moves like a cat and he's packing a big toolbox to boot! A maternal brother was the high seller in the 2008 sale.

Everyone knows length is a hard thing to breed into cattle, and Orion is one of the longest bulls we have ever produced. His tremendous length and bigger frame will add some stretch to your calves resulting in more pounds come fall time. Triton will easily service the bigger cows on your operation. He has a smooth front end and small head so calving should be easy.

Orion 15W

Triple X 36S

Sire of Lots 16-18, 23-26

Terms and Conditions

Terms:

The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance, unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Current exchange rates will be announced sale day. All monies are in Canadian funds.

Bidding:

Each animal will sell to the highest bidder. In the case of a dispute, bidding will be reopened between the parties involved in the dispute. If no further bidding is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision on all disputes will be final.

Announcements:

All announcements made from the auction block will take precedence over the printed matter in the catalogue. Buyers are therefore cautioned to pay close attention to such disclosures.

Breeder's Guarantee:

Should any bull fourteen (14) months of age or over fail to prove a breeder after being used on females known to be breeders, the matter shall be reported in writing to the seller within six (6) months following the date of purchase or six (6) months after the bull has reached fourteen (14) months of age. The seller will have the right and privilege of six (6) months to prove the bull a breeder. No guarantee is given that semen collected from the bull will freeze.

Exception Guarantee:

In cases where the animal is subjected to any hormonal or surgical reproduction techniques after the sale, this guarantee shall be null and void.

Certificate of Registration:

Each animal will carry papers issued by the Canadian Charolais, Canadian Angus, Canadian Simmental, Canadian Gelbvieh and Canadian Hereford Associations. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

Health:

All animals in the sale have met all necessary health requirements.

Liabilities:

All persons attend the sale at their own risk. The seller, facility owner and sale manager assume no liability, legal or otherwise, for any accidents that occur. It is understood that T Bar C Cattle Co. Ltd. is acting only as a medium between buyer and seller and is not responsible for any failure on the part of either party to live up to his obligations. Neither does T Bar C Cattle Co. Ltd. assume any financial obligations to collect or enforce collection of any monies between parties and any legal action that may in exceptional cases be taken must be between the buyer and the seller. T Bar C Cattle Co. Ltd. assumes no responsibility for any credit extended by the seller to the buyer. The buyer must look to the seller for fulfillment of all guarantees and representations made here under.

Rights & Obligations:

The above terms and conditions of the sale shall constitute a contract between the buyer and seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by the terms and conditions of this sale.

Phone, Mail, Wire Bids:

Bidders unable to attend the sale may phone, wire or mail their bids and instructions to the sale managers, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

Delivery:

We will assist in arranging transportation wherever possible. Each animal becomes the risk of the purchaser as soon as sold.

Insurance:

Will be available sale day. We strongly recommend that insurance is purchased for full value.

Errors:

All announcements at sale time, written or oral, supersede any written material in the catalogue.
